CUTE-SYS
MASTER KEYWORD INDEX
+ VISUAL CHEAT SHEET

LAST UPDATED **JULY 23, 2026**

A living reference for saved motif keywords, palette names, multi-image workflows, modifiers, defaults, & idea-bank prompts.

Color swatches in this edition are visual stand-ins based on the saved palette descriptions. Where exact historical hex values were not recoverable, the palette character is preserved rather than presented as an exact formula.

CHANGES

* Added **Multi Page Keywords** for new art style guides PG 3
* Formatting changes for modifier lists PG N/A
* Section title formatting PG N/A

1. OFFICIAL SAVED KEYWORD INDEX

These are the named core keywords, locked recipes, saved hybrids, and layout/output keywords currently carried forward as official CUTE-SYS language.

Multi-image Keyword

Name	Type	Description	Best for
10pg-art-minimanual	Core keyword	Produces 10 images on a particular art style, breaking them down into smaller elements and concepts. Booklet-ready	booklets

PAGE ORDER + STRUCTURE

1. Visual vocabulary / basic shapes
2. Simple construction recipes
3. Parts, marks, stems, fillers, or supporting elements
4. Individual motif studies
5. Side-by-side combinations
6. Overlap and layered compositions
7. Larger composition formulas
8. Borders, frames, patterns, wreaths, or style-appropriate applications
9. Color variations and palette studies
10. Guided practice and remix exercises

- 10 individual letter-size portrait images/pages
- White background
- Clear page title and `1/10–10/10` numbering
- Bright, polished visual-reference-sheet layout
- Lots of examples, not text-heavy
- Short labels, tips, and small “Try It” exercises
- Consistent visual system across all 10 pages
- Content adapted intelligently to the specific art style rather than forcing every style into identical exercises
- Suitable for combining into a printable booklet afterwards

Core Motif / Icon Set Keywords

Name	Type	Description	Best for
magical star bow motif	Core keyword	Base pastel motif built from stars, bows, small charms, and celestial accents. Flexible enough to anchor sticker sheets, tiles, labels, and ephemera.	Celestial + bow collections
magical star bow scalloped tiles	Core keyword	Soft macaron tiles with scalloped edges, stitched borders, and star/bow motifs. The default is the newer, softer pastel version unless a modifier overrides it.	Tile sheets + mini cards
magical girl icon tiles	Core keyword	Plaque-shaped pastel tiles with bows, stars, clouds, magical tools, and heirloom-kawaii shading.	Icon grids + planner tiles
dreamy cloud bow motif	Core keyword	Soft cloud forms paired with bows in bright or milky pastel colors. Dreamy, sky-focused, and easy to adapt into labels or journaling pieces.	Cloud labels + sky ephemera
dreamy celestial bow ephemera — journal cards simple	Locked core recipe	Simple journal cards using dreamy celestial bow ephemera, large writable interiors, and restrained border-only decoration.	Writing-first card sheets
kawaii pastel motif set — junk journal ephemera set (macaron pastels)	Saved output recipe	A mixed ephemera sheet using kawaii motifs, macaron pastel colors, tags, labels, plaques, tabs, and small journal pieces.	General-purpose ephemera

Celestial / Dreamscape Keywords

Name	Type	Description	Best for
bright night ephemera	Core keyword	Deep jewel-toned night-sky ephemera with stars, bows, scalloped frames, and luminous accents.	Night palettes + dramatic sets
bright night ephemera — magical star bow motifs	Saved hybrid recipe	Bright-night color depth combined specifically with the magical star bow motif family.	Jewel-toned bow/star sets
milky pastel icon stickers	Core keyword	Creamy, low-contrast pastel icons with stars, clouds, bows, and gentle celestial motifs.	Soft planner sticker sheets
magical sky frames	Core keyword	Sky-and-space frames with scallops, tickets, plaques, and writing-friendly centers.	Titles, notes, small illustrations
magical star bow scalloped tiles — magical dreamscape motifs	Saved hybrid recipe	Scalloped star/bow tiles shifted into richer magical dreamscapes with sky gradients, clouds, moons, and dreamy scene details.	Scene-forward tile sheets

Floral / Ribbon Keywords

Name	Type	Description	Best for
warm floral ribbon tiles	Core keyword	Warm, dusty pastel floral tiles with ribbons, scalloped edges, and vintage-floral journaling energy.	Heirloom floral pages
magical girl flora	Core keyword	Roses, peonies, daisies, bows, and magical-girl accents in soft but saturated colors.	Floral sticker + icon sets

Magical Girl / Gem & Charm Keywords

Name	Type	Description	Best for
cute magical gems	Core keyword	Gem-dominant motif system: roughly 75% faceted jewels and 25% charms, with hearts, stars, bows, and magical accessories.	Gem-heavy sheets
charmed hearts and keys	Core keyword	Heart locks, keys, lockets, charms, and ribbon details for romantic or secret-note themed sets.	Charm sheets + Valentine-adjacent sets

Stationery / Journaling Keywords

Name	Type	Description	Best for
dreamy journal cards	Core keyword	Ornate pastel macaron journal cards with scalloped/ticket frames, lined or half-lined areas, and small celestial or bow motifs.	Decorative journaling
dreamy journal cards simplified	Core keyword	Cleaner cards with larger writing areas, lighter decoration, and strong planner usability.	Writing-first planner cards
dreamy pastel planner cards (landscape top 30%)	Saved layout recipe	Landscape planner cards where the top roughly 30% holds motif/title decoration and the lower portion stays pale and functional.	Planner dashboards + notes

Name	Type	Description	Best for
coloring vignette set (stationery) — requires motif	Saved output recipe	A stationery-centered coloring-page vignette system. Pair it with a motif such as seashells, flowers, bows, or craft supplies.	Simple coloring pages

Christmas / Seasonal Keywords

Name	Type	Description	Best for
cute pastel christmas heirloom set	Core keyword	Vintage-kawaii Christmas icons with stitched frames, soft heirloom shading, trees, ornaments, candy canes, and cozy seasonal motifs.	Seasonal icon collections
cute pastel christmas heirloom set — kawaii seasonal motifs	Locked recipe	The soft stitched-frame seasonal look with heirloom shading and kawaii motif treatment.	Locked Christmas style
cute pastel christmas heirloom set — macaron brights	Locked palette variant	The same heirloom-kawaii structure with brighter macaron pastels and stronger visual pop.	Brighter seasonal sets
cute pastel christmas heirloom set — macaron brights — christmas icons set	Saved output recipe	A focused icon-sheet version of the macaron-bright heirloom Christmas system.	Cut-apart Christmas icons

Heirloom / Coastal / Vintage Keywords

Name	Type	Description	Best for
vintage pastel heirloom motif	Core keyword	Vintage-style pastel motif family inspired by compasses, clock faces, seashells, and softly shaded heirloom objects.	Vintage object sets
vintage pastel heirloom motifs — compass & clockwork (soft heirloom pastels)	Saved motif recipe	Compass, clocks, gears, and precision objects in soft heirloom pastels with delicate dimensional shading.	Clockwork + archive themes
vintage pastel heirloom motifs — seashell & shoreline (macaron heirloom pastels)	Saved motif recipe	Seashells, shoreline objects, and coastal motifs using brighter macaron-heirloom pastels.	Coastal ephemera + labels

Ephemera / Junk Journal Keywords

Name	Type	Description	Best for
magical star bow motif — junk journal ephemera set	Saved output recipe	Expands the motif into tags, labels, plaques, tickets, tabs, and small journaling bits.	Mixed cut-apart sheets
magical star bow scalloped tiles — junk journal ephemera	Saved output recipe	Turns the scalloped tile style into mixed ephemera while retaining the same star/bow/cloud visual rules.	Cohesive mixed ephemera

Color Reference Layout Keywords

Name	Type	Description	Best for
color palette booklet version 1	Layout keyword	Six individual scalloped palette cards arranged in a 2×3 multi-card sampler page.	Print-and-cut palette cards
color palette booklet version 2	Layout keyword	A tall single-page palette reference with stacked groups, color families, combinations, and notes.	Full-page palette guide

COLOR PALETTE INDEX

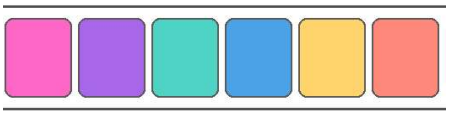

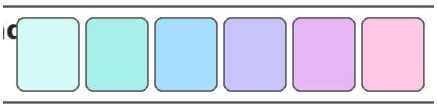

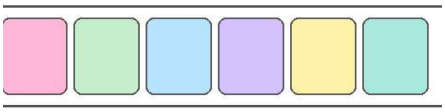

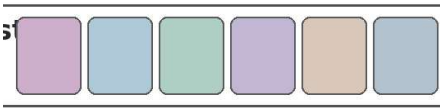

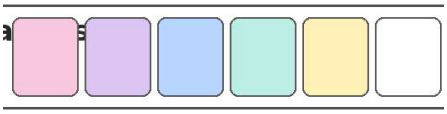

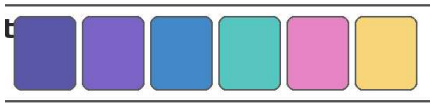

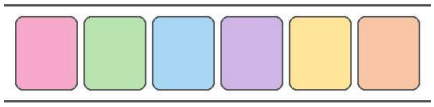

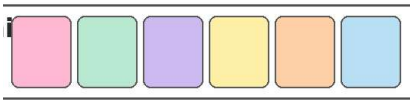

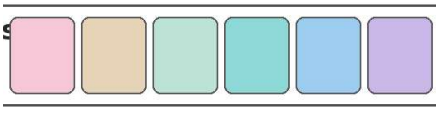

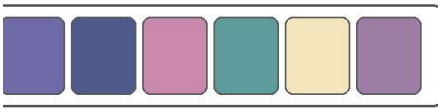

Named palettes are separated from motif keywords so they can be mixed into any compatible style.

Swatches are illustrative unless an exact reference sheet is supplied with the request.

Palette name / type	Character	Illustrative swatch strip
macaron brights *Core palette modifier*	Bright candy-like pastels with strong saturation that still read as soft.	
milky pastel (level 4) *Core palette modifier*	Very soft, creamy, low-contrast pastels with a cool dreamy feel.	
spring pastels *Core palette modifier*	Fresh, clear, slightly cool pastels for flowers, stationery, and spring pages.	
Almost-neon *Saved named palette*	Very bright pink, violet, aqua, blue, and acid-pastel green without going fully fluorescent.	
Pastel neon cool mix *Saved named palette*	Cool neon-pastels balancing pinks and violets with mint, aqua, and blue.	
Kawaii planner brilliance *Saved named palette*	Clear high-energy planner colors with bright pink, aqua, blue, lilac, yellow, and peach.	
Cool mermaid *Saved named palette*	Airy aqua, turquoise, sky blue, periwinkle, and lilac.	
Color-macaron1 *Saved named palette*	Classic balanced macaron set: pink, mint, lilac, peach, lemon, and soft blue.	
Mermaid jewel *Saved named palette*	A richer mermaid spectrum with saturated teals, blue, violet, purple, and pink.	
Milky-pink-sky *Saved named palette*	Milky blush and pink drifting into lavender, pale sky blue, and icy mint.	
Milky-pink-scene *Saved named palette*	A scene-friendly milky pink family with lavender, creamy peach, and pale green-gray support colors.

4. MULTI-IMAGE / BATCH WORKFLOWS

one reference = one output	Return one separate image for every reference image; do not combine them into a single sheet unless explicitly asked.
set-per-sheet batch	Each output image contains one complete set of a fixed number of assets, commonly 6 or 12–15.
single-change batch edit	Apply one named edit across every reference while preserving composition, proportions, palette, and all untouched details.
edit + isolate assets	First return the edited designs; then return isolated motif elements from each edited design on white or transparent backgrounds.
palette-variant batch	Keep the exact motif/layout system and produce multiple palette-only variants with strict palette preservation.
line-weight ladder	Show the same design at line-weight levels 1–5, with no other changes.
complexity ladder	Show the same motif at complexity levels 1–5 while preserving style and scale.
colored / simplified / coloring-page trio	Reusable wording for icon systems, card sheets, and ephemera where the second and third images share the same simplified construction.

5. MODIFIER INDEX

- Do not change proportions
- Do not change palette
- Do not add texture
- Only change the named element
- One output per reference

6. GLOBAL DEFAULTS / DO-NOT-DRIFT RULES

Rule	Saved default
Writing-first interiors	Cards intended for writing should use very light pastel or off-white interiors. Decoration stays primarily on the border.
Line weight	Default heavy, clean outer borders; divider lines should match the outer border. Coloring pages usually use line weight 3, sometimes 3.5.
Complexity	Default coloring-page complexity is around level 3: enough detail to feel interesting, without tiny fussy texture.
Texture	Remove 80–100% of texture for coloring pages and clean sticker/label systems unless texture is explicitly requested.
Faces and exclusions	No faces on moons, stars, or clouds. No aliens or spaceships in the saved celestial system.
Ephemera density	Prefer about 12–15 assets per ephemera sheet. Avoid extremely tall sheets with dozens of tiny items.
Spacing	No thin separators, crowded filled areas, or touching sections. Leave breathing room between shapes.
Shapes	Rounded corners and thick borders are preferred. Labels may use rectangles, tickets, scallops, and inverted/scooped corners.
Colorable sets	For a colorable version, keep the same simplified construction and use clean closed shapes with no gray fill or decorative texture.

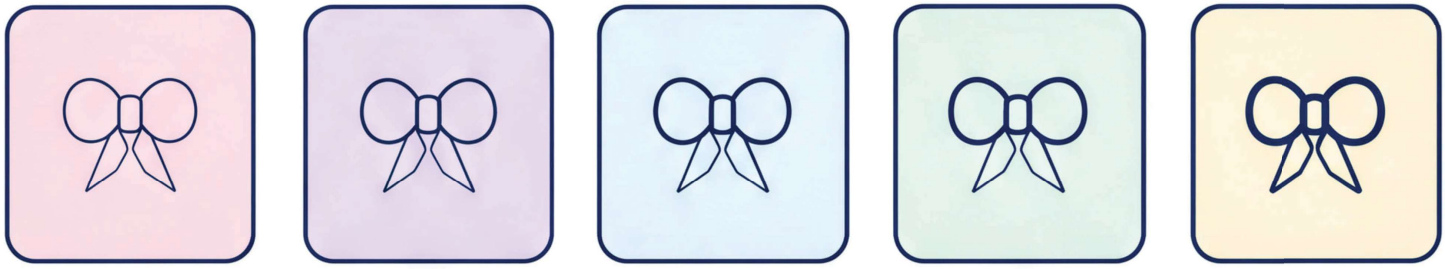

Quick preservation sentence

"Keep the exact composition, proportions, scale, palette, line style, and spacing. Only change the named element; do not add texture or extra decoration."

ADD-ON 4. PALETTE PAIRINGS + USE THIS WHEN...

A fast pairing guide for matching palette families to motif families and page moods.

Family	Strong palette fits	Use this when...	Tiny sample
Celestial / Dreamscape 	Pastel neon cool mix, Milky-pink-sky, Milky-pink-scene	You want clouds, bows, stars, moons, and soft dreamy contrast.	
Bright night / dramatic celestial 	Jewel macaron pop, Mermaid jewel, Almost-neon	You want richer night scenes and more glow.	
Floral / ribbon 	Spring sorbet cool, Dusty cool pastel, Color-macaron1	You want florals, ribbons, and romantic card sets.	
Heirloom / coastal / vintage 	Cool mermaid, Dusty cool pastel, Mermaid jewel	You want shells, clocks, compasses, and softly aged sweetness.	
Planner / writing-first 	Milky-pink-scene, Color-macaron1, Kawaii planner brilliance	You need function first but still want a cute system look.	
Christmas / seasonal 	Macaron brights, Gingerbread neutrals, Jewel macaron pop	You want cozy seasonal sets, stitched frames, and extra charm.	

Pairs well with...

Milky palettes pair well with lighter decoration and roomy writing areas.

Jewel palettes pair well with night scenes, gems, and stronger contrast.

Dusty or coastal palettes pair well with heirloom objects and archive layouts.

ADD-ON 5. MODIFIER STACKER

Build the prompt in layers: start with the family, then stack control words with intention.

KEYWORD + PALETTE + OUTPUT + DETAIL / FINISH + PRESERVATION

Not every prompt needs every layer, but this order keeps things stable.

1. Color modifiers

- macaron brights
- milky pastel (ievel 4)
- spring pastels
- gingerbread neutrals
- palette brighter
- palette softer
- palette cooler
- palette warmer

2. Layout / output modifiers

- junk journal ephemera set
- journal card simple
- journal card mixed
- journal card planner
- label & tag frames
- planner icon minis
- journal-friendly icon scale

3. Style / finish modifiers

- vintage pastel texture
- heirloom-kawaii shading
- extra shiny gems
- more minimal
- more ornate
- more rounded
- heavier linework
- more breathing room

4. Preservation / strictness

- freeze-absolute
- strict palette preservation
- preserve frame shapes
- preserve line weight
- do not change proportions
- only change the named element

1 WORKED EXAMPLE

magical star bow scalloped tiles +
Pastel neon cool mix +
junk journal ephemera set +
12–15 assets +
heavier linework +
strict palette preservation

2 WORKED EXAMPLE

dreamy journal cards simplified +
Milky-pink-scene +
journal card simple +
border-only decoration +
more breathing room

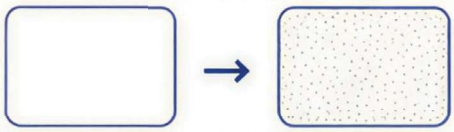

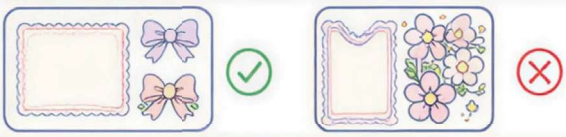

3 WORKED EXAMPLE

vintage pastel heirloom motifs —
seashell & shoreline +
Cool mermaid +
label & tag frames +
softer linework +
preserve frame shapes

ADD-ON 6. GLOBAL DEFAULTS / DO-NOT-DRIFT RULES

Use these as the default unless a request clearly overrides them.

Rule	Saved default	Tiny visual cue
1. Writing-first interiors	Keep writing spaces very light pastel or off-white. Decoration stays mostly on the border.	
2. Line weight	Default clean heavy outer borders. Divider lines usually match the border. Coloring sets usually target line weight 3 to 3.5.	
3. Complexity	Default coloring-page complexity is about level 3: enough detail to feel interesting, not tiny or fussy.	
4. Texture	Remove 80–100% of texture for coloring pages and clean printable systems unless texture is explicitly requested.	
5. Faces and exclusions	No faces on moons, stars, or clouds. No aliens or spaceships in the saved celestial system.	
6. Ephemera density	Aim for about 12–15 pieces per ephemera sheet. Avoid extremely tall pages or dozens of tiny crowded assets.	
7. Spacing	Leave breathing room. Avoid thin separators, cramped filled areas, and touching sections.	
8. Colorable sets	For a colorable version, keep the same simplified construction and use closed linework with no decorative texture or muddy gray fill.	

Quick preservation sentence

"Keep the exact composition, proportions, scale, palette, line style, and spacing. Only change the named element; do not add texture or extra decoration."

ADD-ON 7. LINE WEIGHT LADDER

Use this to choose how fine or bold the linework should feel in a page, motif, or colorable set.

Level 1
Very light

Best for:
delicate decorative sheets and airy reference pages.

- fine outlines
- softest presence
- best when detail is already low

Level 2
Light

Best for:
cute tags, labels, and soft printable cards.

- still gentle
- clean but readable
- works for many pastel sets

Level 3
Balanced default

Best for:
the usual saved default for many printable pages.

- clean and versatile
- good readability
- default sweet spot

Level 4
Heavy

Best for:
coloring pages and bolder decorative sheets.

- stronger contrast
- easier to color
- use when details get busy

Level 5
Extra heavy

Best for:
simple kid-friendly coloring or very bold statement pages.

- maximum visibility
- least delicate
- best when simplification is also high

Saved default reminder

For most saved coloring-page requests, the system usually aims around line weight 3 to 3.5, with outer borders and major shapes slightly heavier than interior details.

ADD-ON 8. COMPLEXITY LADDER

Use this to decide how busy, layered, or simplified a page or motif should be.

Level 1
Very simple

Best for:
Tiny icons, easy coloring, fast cut-aparts.

- few shapes, no tiny fillers
- maximum blank space

Level 2
Simple

Best for:
Planner stickers, clean tags, roomy labels.

- some layering, still spacious
- minimal fillers and accents

Level 3
Balanced default

Best for:
Most coloring pages and versatile printable sheets.

- interest without fuss
- good balance of elements and space

Level 4
Detailed

Best for:
Decorative journal cards and richer motif sheets.

- more trim, more secondary motifs
- smaller spaces, added accents

Level 5
Dense / ornate

Best for:
Statement pieces and highly embellished sheets.

- dense decoration, least blank space
- many tiny details and fillers

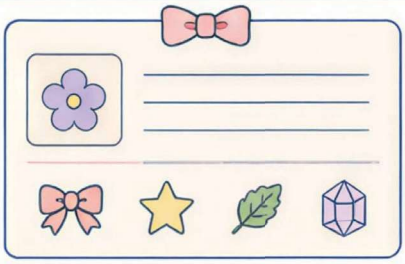

Default reminder

Unless requested otherwise, the saved system usually aims around level 3 for colorable sets and around level 3 to 4 for decorative printable pages.

ADD-ON 10. DOC-TYPE STARTER BANK

Low-fidelity page concepts and cute reference-sheet ideas that fit the CUTE-SYS world.

1. Motif library index card

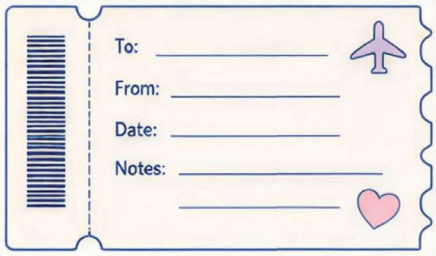

2. Bloom catalog card

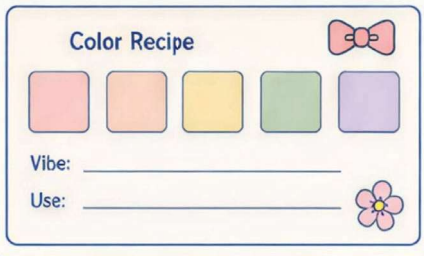

3. Weather diary card

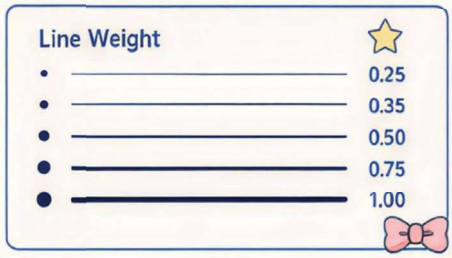

4. Boarding-pass note card

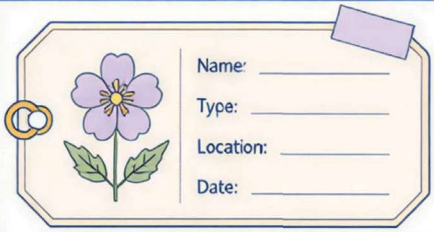

5. Color recipe card

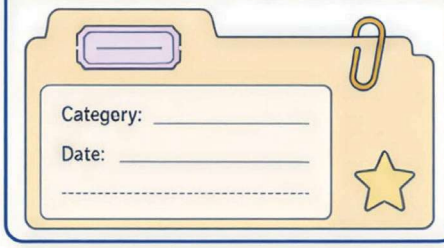

6. Line-weight test card

7. Specimen label card

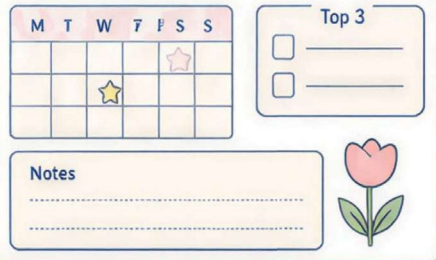

8. Archive folder tab

9. Palette booklet card

10. Planner dashboard card

11. Ticket-style memory card

12. Keyword cheat-sheet plaque

How to use these

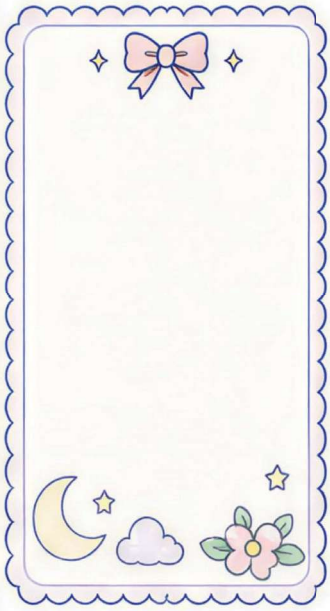

Treat these as page archetypes, Swap in a motif family, pick a palette, choose the line weight / complexity level, and then decide whether the page should be writing-first, decorative, or cut-apart.

ADD-ON 11. WRITABLE / DECORATIVE BALANCE

Choose how much of the page should be writing space, decoration, or cut-apart content.

Mode 1
Writing-first

Best for:
notes, journaling, planner inserts.

- largest writing area
- decoration stays on the border
- very light interiors

Mode 2
Balanced

Best for:
versatile printable cards.

- sweet spot
- cute but usable
- most flexible

Mode 3
Decorative

Best for:
statement cards and display pieces.

- more motif space
- smaller blank zones
- use when visuals lead

Mode 4
Cut-apart

Best for:
tags, labels, stickers, and sheet-style outputs.

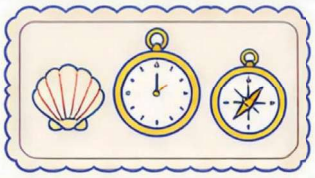

- many small pieces
- less writing space
- good for junk journal sets

Quick choosing tip

If the page is meant to be written on, start around writing-first or balanced. If the page is mostly for cut-apart assets or display, move toward decorative or cut-apart mode.

ADD-ON 12. MOTIF + OUTPUT MATCHUPS

A fast guide for pairing saved motif families with the output formats that suit them best.

Family	Strong output fits	Use this when...	Tiny sample
Celestial / Dreamscape	dreamy journal cards, icon tiles, ephemera, coloring vignette sets.	you want clouds, bows, stars, moons, and soft magical mood.	
Floral / Ribbon	journal cards, labels, borders, note cards.	you want ribbons, blooms, soft romance, and planner-friendly sweetness.	
Journaling / Planner	writing cards, planner cards, dashboards, checklist pages.	function matters first but the system should stay cute.	
Heirloom / Coastal / Vantage	library cards, archive tags, specimen labels, palette guides.	you want shells, clocks, compasses, and softly aged charm.	
Gem / Charm / Ephemera	junk journal ephemera sheets, sticker minis, cut-apart charms, decorative tiles.	you want small collectible-feeling assets and cute variety.	
Seasonal / Christmas	festive frames, holiday ephemera, icon sets, cozy note cards.	you want a seasonal look with stitched charm and heirloom softness.	

Pairs well with...

- Celestial + journaling cards
- Heirloom + archive layouts
- Floral + writable note cards

ADD-ON 13. PRESERVATION PHRASE BANK

Use these sentence patterns when you want edits without drift.

1 Freeze everything

Use when: you want a near-identical redo.

"Keep the exact composition, proportions, scale, palette, line style, and spacing. Only fix the named issue."

2 Palette only

Use when: you want recoloring without other changes.

"Keep the design exactly the same and only change the palette. Preserve all shapes, layout, and decoration density."

3 Motif only

Use when: you want new objects in the same layout.

"Keep the exact format and composition, but swap the motif family to *[new motif]*."

4 Simplify it

Use when: the page feels too busy.

"Keep the same concept and palette, but simplify the decoration by about one level and add more breathing room."

5 Heavier line

Use when: the page is too fussy or hard to color.

"Keep the same design, but increase line weight and reduce tiny filler details."

6 Colorable version

Use when: you want a matching black-line page.

"Make a colorable companion version with the same construction, closed linework, and no decorative texture or muddy fill."

Stacking tip

Preservation phrases work best after the keyword family and output type. Then add only the change you actually want.

ADD-ON 14. COLORABLE CONVERSION GUIDE

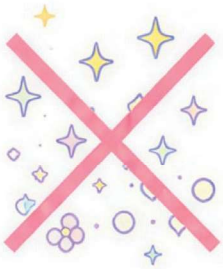

Use this to turn a pastel decorative page into a clean colorable companion without losing the original structure.

1. Keep

- keep the same composition
- keep main shapes
- keep section layout
- keep closed linework

2. Remove

- remove texture
- remove muddy gray fill
- remove extra sparkles if tiny
- remove dense filler clutter

3. Convert

- turn color blocks into open shapes
- simplify shading
- thicken important outlines
- preserve readable borders

4. Optional

- reduce complexity by one level
- increase breathing room
- combine tiny accents
- make interiors easier to color

Before

After

Useful conversion sentence

"Make a colorable companion version that keeps the same construction and proportions, but removes decorative texture and converts color areas into clean closed linework."

ADD-ON 15. PROMPT FIX TROUBLESHOOTER

Quick phrase fixes for the most common drift and polish problems.

1. Too busy

If it looks like:
the page has too many motifs or details.

Say this:
simplify by one level

2. Too empty

If it looks like:
the page feels sparse or unfinished.

Say this:
add one more layer of decoration

3. Too pale

If it looks like:
everything looks washed out or low contrast.

Say this:
keep the palette but brighten it slightly

4. Too dark

If it looks like:
the page feels heavy or hard to read.

Say this:
lighten the page and reduce heavy fills

5. Too ornate

If it looks like:
there's too much trim or filler detail.

Say this:
reduce trim and filler detail

6. Too plain

If it looks like:
the page feels flat or under-decorated.

Say this:
add one more motif layer

7. Wrong scale

If it looks like:
motifs are too big or too small.

Say this:
make motifs larger

8. Wrong spacing

If it looks like:
elements feel cramped or touching.

Say this:
add more breathing room

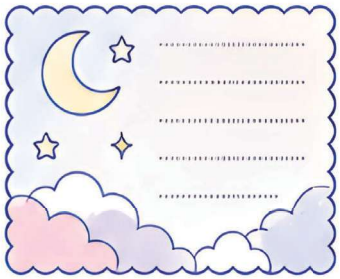

Best practice

Call out only the problem you actually see, and then name exactly one or two fixes. The more specific the fix, the less drift you get.

ADD-ON 16. CONTEXT MIXER

Low-fidelity page starters and cute archetypes you can remix with any saved motif family.

1 Dreamy sky journaling card

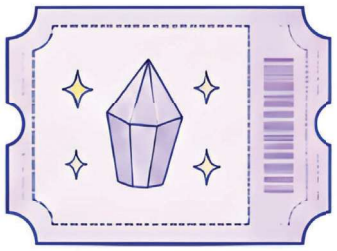

2 Coastal archive tag

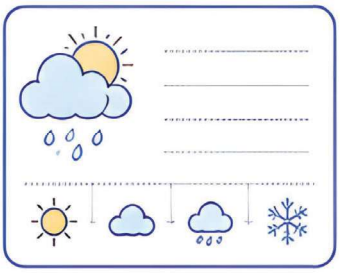

3 Bloom note label

4 Gem ephemera ticket

5 Weather diary card

6 Cozy tea note

7 Travel memory stub

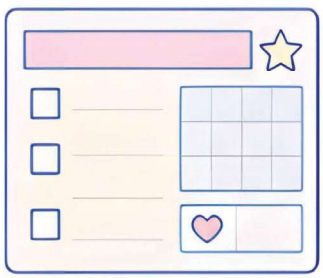

8 Library motif card

9 Holiday frame card

10 Planner dashboard

11 Color recipe card

Mood: _____

Palette: _____

Notes: _____

12 Tiny icon tile sheet

How to use these

Pick a starter, swap in a motif family, choose a palette, then decide whether the final page should be writing-first, decorative, or cut-apart.

ADD-ON 17. VARIATION REQUEST BLUEPRINTS

Reusable request formulas for asking for more versions without losing the look you liked.

1. Exact redo

Use when: you want the same page again with tiny fixes.

Example request:
Redo this page exactly, fix the typo in the footer.

2. New palette

Use when: you want the exact page in a different color family.

Example request:
Keep everything the same but use a sunset palette.

3. New context

Use when: you want the same visual system in a different motif/theme.

Example request:
Same layout and style, make it space-themed.

4. Simpler version

Use when: you want one or two levels less complexity.

Example request:
Make a simpler version with less detail.

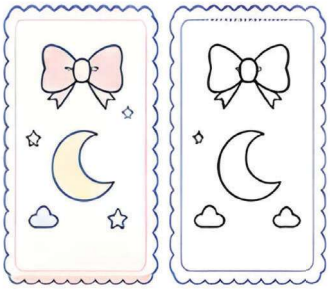

5. Heavier line version

Use when: you want easier coloring or bolder outlines.

Example request:
Same design, but use heavier line weight.

6. Color + colorable pair

Use when: you want a full-color page and a matching black-line companion.

Example request:
Provide both a color version and a colorable (black-line) version.

Blueprint sentence starter

Keep the exact style and formatting of this page, then change only the requested palette, motif, complexity, or line-weight instruction.
